Leadership

King Tendies
Founder

A crypto veteran and NT Elite Citizen renowned for legendary crypto calls and community success. He leads the team, marketing, and strategy.
His ability to spot high-potential projects and navigate volatile markets has fueled $CALVIN's rapid growth.

X @Tendiesking

ChadNFTtheGod
Head AI Developer

The lead AI engineer driving $CALVIN's evolution in trading intelligence and personality development. He integrates machine learning for precision trading, market analysis, and user interactions, ensuring $CALVIN remains adaptive, strategic, and engaging.

X @chadNFTtheGod

CryptoNFTManiac
Head of Business Development

Neo Tokyo Elite Citizen and Blockchain Game Alliance member, he focuses on WEB3 gaming. Currently collaborating with AMGI Studios (My Pet Hooligan) on a music project. Known for strong networking, he expanded $CALVIN's reach in the SOLANA ecosystem and will later introduce it to VCs.

X @CryptoNFTMan1ac

Le Boomington
Creative Lead

Video lead, Lore team and Council Member at Neo Tokyo, expert in AI-driven creative storytelling, Le Boomington shapes $CALVIN's multimedia lore.

Video production veteran and published author with experience extending beyond content creation into community development and advisory roles.

X @LeBoomington

FerrySkiSafari
Head Designer

A Web3 designer behind the NFTs for TTOO and Nexus Labs and the branding for Coliseum.

Known for crafting immersive digital experiences, he blends expert UX design with creative storytelling, shaping $CALVIN's visual identity and user experience.

X @FerrySkiSafari

Arsenal De Caus
Immersive Media Creator

Content creator specializing in AI-driven visual and sound design, dedicated to using the latest technology to bring ideas to life and tell the story of $CALVIN.

A passionate film enthusiast with a deep love for all things 80s, blending retro inspiration with cutting-edge tools to create immersive, story-rich experiences.

X @ArsenalCaus

Advisory

Hustlepedia
Advisor

Jonny, known as @OxHustlapedia, is the founder of This Thing of Ours (TTOO), a pioneering crypto gaming hub and NFT-backed treasury. As CEO of Nexus Labs (@NexusLabsGG), he leads the development of advanced GameFi data tools.

He grew his YouTube channel to 100K + subscribers with sharp, insightful crypto gaming content and continues to shape the GameFi space, bridging blockchain innovation with mainstream adoption.
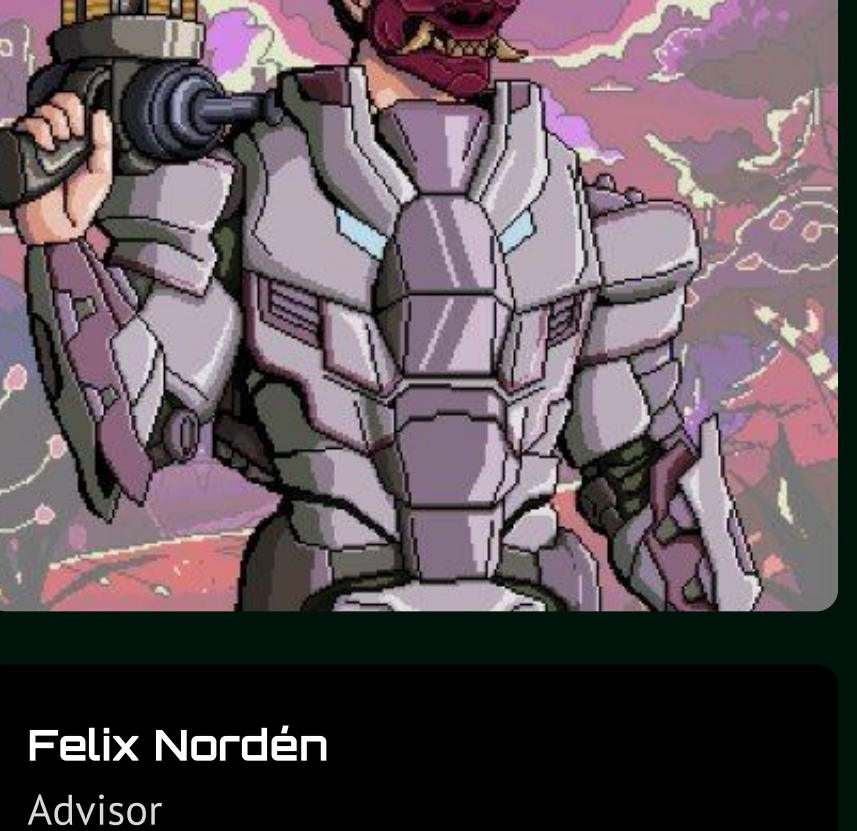

X @0xHustlepedia

Beau
Advisor

Beau Trades_ is a 12-year options trading veteran and the founder of @MarketElites, a leading Web3 trading community. With an 80% win rate on swing trades and over 22,000 hours of live trading, he has built a reputation for precision and trader education.

His initiatives have driven major presales, successful airdrops, and high-performing trade calls, making @MarketElites a hub for both new and experienced traders.
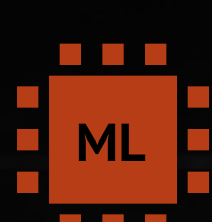

X @BeauTrades_

Felix Nordén
Advisor

Felix Nordén is a former data scientist at Twitch/Amazon turned Web3 developer and entrepreneur. He has deployed over 100 smart contracts and currently leads three businesses: Mure, making on-chain payments easy; Yurei, enabling collective investments; and Ignis, aiding Web3 projects technologically.
He is also the founder of Edenlayer and heads the Dev Division at Neo Tokyo, advising various projects on strategic decisions, tokenomics, and mathematical models.
